**14th IEEE International Conference on**  
**Network Protocols**  
**Santa Barbara, California, USA**  
**November 12-15, 2006**

ICNP 2006, the fourteenth IEEE International Conference on Network Protocols, is a single-track conference covering all aspects of network protocols including design, analysis, specification, verification, implementation, and performance. ICNP 2006 will be held in Santa Barbara, California, USA on Nov. 12–15, 2006. Papers describing significant research contributions to the field of network protocols are solicited for submission. Papers cannot be previously published nor under review by another conference or journal. Topics of interest include, but are not limited to:

1. Protocol testing, analysis, design and implementation
2. Measurement and monitoring of protocols
3. Protocols designed for specific functions, such as: routing, flow and congestion control, QoS, signaling, security, and resiliency
4. Protocols designed for specific networks, such as: wireless and mobile networks, Ad hoc and sensor networks, and ubiquitous networks

Details will be posted on the conference web site as they become available.

**IMPORTANT DATES:**
